## **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 17-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Otto et al 4,518,026 in view of Beitel 4,752,517.

Otto et al set forth a sectional door 10 having a plurality of panels 12 comprising a frame including a horizontal hinge member; a plurality of layers (inclusive of members P) held in place by the frame and are movable relative to one another; wherein the layers comprise a polystyrene core 50 sandwiched between skin layers. What Otto et al does not set forth is the frame members being formed from aluminum extrusions, and the skin layers formed of polyethylene. However, Beitel teaches forming door panels incorporating frame members 20 formed from aluminum extrusions, and skin layers 14 and 16 formed of polyethylene. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the panels of Otto et al by forming the frame members from aluminum extrusions, and the skin layers formed of polyethylene, as taught by Beitel, in order to reduce the overall weight of the panels and door, while also increasing the strength and rigidity thereof. As concerns the method of forming the sectional door, the examiner takes the position that since the

Application/Control Number: 09/249,916

Art Unit: 3634

structure is set forth, as advanced above, the method is obvious and thereby also set forth.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce A. Lev whose telephone number is (703) 308-7470.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-2168.
